AR/VR DESIGN & DEVELOPMENT

AR/VR Integrated

- Full Time Course
- 100% Practical Training
- Industry Oriented Training Module
- 3-5 classes in a week
- Group/ Individual Project
- 100% Job Placement Guaranteed

18 Months CERTIFICATE COURSE

Course Fee- 1,70,000 + GST

Join India's 1st Augmented & Virtual Reality
Games Training Institute

Virtual reality (VR) is an interactive computer-generated experience with a simulated environment, that incorporates mainly auditory and visual, but also other types of sensory feedback like haptic. This immersive environment can be similar to the real world or it can be fantastical, creating an experience that is not possible in ordinary physical reality.

Augmented reality systems may also be considered a form of VR that layers virtual information over a live camera feed into a headset or through a smartphone or tablet device giving the user the ability to view three-dimensional images.
